Skills

DevOps and Infrastructure

Virtualization • System virtualization platforms: Docker, libvirt's QEMU/KVM, VMware's vCenter and ESXi. System templates: CentOS, Ubuntu, FreeBSD, Debian, Windows in vmdk, vdi, vhdx, qcow2, & raw filetypes.

Disaster Recovery • Proxmox high availability ZFS solution featuring: Incremental 15min snapshotting for all VMs & persistent data using [PBS2](#), [cv4pve](#) and [Sanoid](#).

Networking • Virtualized edge routing: Linux, pfSense, OpenVSwitch, SPAN port for IDS, VLANs, DNS, BIND, VPN Installation of virtual network infrastructure: VMware ESXi, Proxmox, Hyper-V, Xen

Containers • LXC, containerd, docker compose, docker networking. Distributed storage technologies: NFS, Ceph, S3 as well as dynamic resource management: Kubernetes, Docker Swarm.

Hybrid cloud administration • Using tools such as SSH/tunneling, SSL, UDP hole punching, VPN, and single sign-on identity management.

Edge deployment • SSL certificate management with reverse proxy, using Traefik's YAML config added Security Onion IDS within virtualized infrastructure with additional SPAN port to duplicate internal traffic.

Cross-platform systems administration • Experience architecting domains across a variety of systems: Debian, CentOS, Ubuntu, FreeBSD, Microsoft Windows.

DevOps • Knowledge of cloud infrastructure (AWS, Azure, GCP, Oracle) & orchestration (Chef, Puppet, Ansible, SaltStack, Terraform, Helm, OpenStack).

Programing • Programming language and database management skills (PHP, Javascript, Python, SQL). Shell scripting with Bash.

Presentations

Browser Privacy

* Understand what data is collected by the tools you use. - [11/10/22](#) - [9/3/22](#)

· [Link to Slides](#) | [Link to Video](#)

Opensource Firmware on Routers

* What can opensource do for home consumer routers? - [4/1/23](#)

· [Link to Slides](#) | [Link to Markdown](#)

Industry Experience

Leadership Activies

Software Freedom School, Littleton, CO - 2022 - Present

- Software Freedom School board member since March 2023
- Maintain open tickets for [SysOps board](#)
- Presented at monthly community meetings
- Team Member in weekly Linux study group

IT and Web Consultation / Freelancing

Holtzweb, Denver, CO - 2019 - Present

- Established clients' cloud based hosting environments, virtualization, and operations infrastructure.
- Strategized SEO/SEM campaigns across web presence including blogs, email newsletters, ads & promotions resulting in a 40% increase in face to face traffic and web traffic.

Web Development

Highline Ideas, 1187, Mayer Networks, Carbondale, IL - 2013 - 2017

- Created and designed custom website layout/user interfaces
- Integrated data from various back-end services and databases
 - election data, employee database, interactive event map
- Worked directly with clients to facilitate business and marketing needs
- Executed tests, analyzed data to identify trends and insights using analytics tools and 3rd party optimization tools
- Ensured all site development follows web standards and ADA compliance for accessibility.
- Executed SEO-based initiatives, including website analytics and optimization.
- Fixed broken installs, hacked sites, busted databases, and never-been-updated themes/plugins.
- Repaired, updated, and redesigned new & existing sites.
- Designed custom website layout/user interfaces and custom backends to meet project deadline/requirements.

Tools

Software Tools Used

Linux, bash scripting, Python, HTML, CSS, JavaScript, MySQL, Apache, Nginx, HAProxy, Traefik, Samba, Windows Server, Active Directory, GIT, VMWare vSphere, ESXi, libvirt, QEMU, KVM, Xen, Hyper-V, Nagios, Docker, Vagrant, Ansible, Jenkins, Puppet, Chef, SaltStack, Helm, Kubernetes, Terraform, AWS, GCP, Oracle Cloud, Microsoft Azure, Private Cloud Hosting, Red Hat Linux (RHEL), CentOS, Debian, Ubuntu, OpenSUSE, Android, Adobe Photoshop

Education and Training

BS in Finance - 2011 Southern Illinois University

Linux Foundation Certified System Administrator (LFCS): expected July 14th

AWS Certified Cloud Practitioner: expected May 15th

Last Built on: Wednesday 3rd May, 2023
